My vision

If I will be re-elected I wish to continue my work as vice President with focus on the items mentioned above. The work will then be based on decisions made from the Council, The Section and Boards (Including MJC's and Thematic Federations).

To reach the goals I think it is of important that we continue our work to increase the interaction between all National Associations, Section and Boards, MJC's and Thematic Federations in UEMS and in this way continue our work with harmonization based on international agreements.

I hope to have the privilege to continue to participate in meeting of Sections/Boards and MJC's to learn more about different successful ways to deal with solutions of e-portfolio, how to write learning requirements and other topics of importance.

Hans Hjelmqvist
