Vision of UEMS

Vast experience in medical academic education as well as provision of continuing medical education, participation, as an expert, in elaboration of curricula of specialist training in oral and maxillofacial surgery – i.e. experience in issues that are key elements of UEMS's activities.

As a holder of both degrees – medical and dental – has also experience in the activities of international dental organizations:

- World Dental Federation (FDI),
- European Regional Organization of FDI (ERO-FDI),
- Council of European Dentists (CED).

Participated in numerous international events related to medicine and dentistry (e.g. debates organized in European Parliament).

I believe that my professional and educational experience I gained over years makes me an appropriate candidate to stand for election in UEMS
