Our latest innovation: a tablet-based solution  
for scientific examinations

Click on the page to launch the video.  
You can also use this link: <https://bit.ly/2xxVeUA>

## Our expertise within medical examinations

- + Our dedicated team manages 13 exams everywhere in Europe for 1300 candidates per year.
- + We have in-house experts in project and planning management, ergonomics, algorithmics, etc.

### Our four main assets:

- ✓ Network reliability,
- ✓ Data security,
- ✓ Anti-cheating features,
- ✓ A will centralise and plan feature

(if we develop a feature for a partner, it might be beneficial to you as well)

## We are constantly working on improving the platform

- + We look into exporting the solution for testing centers.
- + We work with the ESC's education team, potential partners and medical examinations experts to improve the platform's statistical output as well as to offer a management dashboard built for the users.
- + A second version of the platform is currently on its way and will include features such as :
  - + An automatic MCQ selection feature to fit the Blueprint ✓ **already up and running**
  - + A caption writing feature for the media ✓ **already up and running**
  - + The capacity to generate new formats of reports: by topic, status, author, and by exam
  - + A feature to display customised texts when landing on the Author's homepage (e.g. *"please write MCQs for topic X in priority"*)
  - + An after-exam survey to be completed by candidates
