Dear Daniel,
Two more centres accredited, ORSI the robotic training centre in Ghent, and the National Laparoscopic training centre in Trondheim.
The Nasce 2016 meeting will take place in Dublin October 7-8 (for program please go to nascenet.org).
We have put a faculty together that will discuss a nasce train the trainers course.

Biggest problem is still growth; we need more good centres to apply for accreditation, plus that we have difficult to get our information to the right persons in the section and boards. We need help with this and to disseminate the information to the national surgical societies.

Otherwise the webpage
nascenet.org), is now functioning reasonably well and has all pertinent information.
Anders
