UEMS CME/CPD Working Group

Bruxelles, 15.00-18.00 19 March 2004

Chairman: Dr. Edwin Borman (UK)
Rapporteur: Mr. Lars Bjoern Rasmussen (DK)
Participants: SLO, CR, Slovakia, D, M, B, I, P, L.
Observer: PWG
Apologies: IS, SF

AGENDA

1. Confirming Good Clinical Practice – a UEMS policy paper

The present draft 2, 040301 was discussed, after previous rejection of draft 1 at the meeting in Slovenia.

Belgium and Ireland had presented major objections in memos, especially concerning the involvement of other parties (stakeholders) in the QA process.

Finally after a very good discussion:

- The title was altered to: Promoting Good Medical Care
- Amendments were included in the summary and additional statements

And the draft was prepared for presentation to the Management Council on 20 March 2004.

The working group urges the Management Council to decide – on the basis of the previously accepted 5 key points on Quality Assurance:

- Does the Management Council still want a paper on Quality Assurance?
Does the Management Council want to decide on certain key principles and amendments in the forwarded draft?

2. Adjournment:

No further discussion on further matters.
