Landmark agreement signed

A landmark agreement was signed on Friday for the official adoption of the European Diploma Examination in Anaesthesiology.

This agreement was reached between Dr Zeev Goldik, chairman of the examinations committee of European Society of Anaesthesiology, and the Association of Anaesthesiologists of Malta, which is responsible for accreditation of training in anaesthesiology in Malta.

The European Society of Anaesthesiology holds these postgraduate diplomas in anaesthesiology in various centres in Europe. This examination has already been officially adopted through similar agreements in various other European countries including Hungary, Austria, Bulgaria and Switzerland.

Officially adopting this postgraduate examination recognised in Europe as the specialisation exam for

anaesthetists places Malta among the forerunners. As a result, doctors specialising in anaesthesiology in Malta can not only sit the first part examination in Malta but also benefit from reduced examination fees. In addi-

tion a Maltese examiner in anaesthesiology will be entitled to sit with the other European examiners on this examination.

Parliamentary Secretary Joe Cassar presided over the signing ceremony.
