CME-CPD in Europe: The View of AEMH
AEMH statement - Madrid

● Credit points, although being an important instrument, is insufficient to measure Quality Assurance and Quality Control.

● A high score in the meaning of many CME-points carries the risk of giving the false impression of high quality.

● The score usually indicates the extent of education in hours, and is therefore only a measure of time spent.

Quality of care and patients safety
EMO’s Consensus Statement on CPD - Luxembourg, 2015

- Every doctor must engage actively in CPD which is appropriate for her/his identified learning needs.

- The profession should be responsible for CPD
EMO’s Consensus Statement on CPD - Luxembourg, 2015

There is a lack of evidence that recertification or revalidation methods are helpful in the detection of poorly performing doctors or making healthcare safer.
OPHTHALMOLOGY

- Strabism
- Pediatric Opht
- Glaucoma
- Medical Retina
- Cornea and Refractive Surgery
- Ocular Inflammation
- Oculo-Plastic
- Neuro-Ophthalmology
- Contact lens
- Surgical Retina
