February 11th 2003

- Presidents / Secretaries of the UEMS Working Groups

Dear Colleagues,

The Management Council created some Working Groups on topics that seemed to be of interest for the future and where more information should be gathered in order to have the opportunity to propose something to the authorities based on detailed study.

During the last Management Council in Stockholm it was proposed to re-evaluate the activities of the different Working Groups so that they eventually should be redirected to more delimitated domains.

In order to prepare carefully the next meeting of the Management Council we would like to ask you to provide us a report of the activity of your Working Groups so that we could present it at this Meeting.

Can you please send us a short report by e-mail if possible before the end of February 2003.

Thank you for your collaboration.

Sincerely yours,

Dr. Bernard Maillet,
Secretary-General.
