

European Junior Doctors
Permanent Working Group

EUROPEAN JUNIOR DOCTORS

Indre Butiene

Chair EJD PGT Committee

The European Junior Doctors Permanent Working Group (EJD / PWG) was formally created in Bad-Nauheim, Germany, in May 1976. Since then, the EJD has become a European Medical Organisation with national memberships, representing over 300.000 Junior Doctors all over Europe.

**DREAMS
EXPECTATIONS
RIGHTS**

**RESPONSIBILITY
ACCOUNTABILITY**

• EJD Mission and tasks

- The Association is a non-governmental, independent, not for profit international association.
- The mission of EJD is:
 - To represent and further the interests of junior doctors in Europe
 - To exchange information and develop a common approach, and formulate common views on relevant matters such as medical manpower, postgraduate medical education, and working conditions;
 - To improve relations between junior doctors in European countries;
 - To improve and protect the standards of health care in Europe.

EJD replies to the Proposed WMA Statement on the use of Social Media

- The EJD Executive Board replied on the "Proposed WMA Statement on the professional and ethical usage of social media" to help developing a guideline for doctors in the use of Social Media.
- The EJD strongly believes in the freedom of speech of a private person and that there should be no new restrictions set by any authority, except for those already existing outside the cyberspace (e.g. Doctor-Patient confidentiality). Moreover expanding all real life limits of Doctor-Patient relationships onto various kinds of cyber-contacts could put any doctor in a permanent legal danger, when using the Internet.

***EJD representativeS to UEMS Specialist Section
(S) / European Board (B) / Multidisciplinary
Joint Committee (MJC)***

- Since 1991, the EJD has had the right to have their representatives to the UEMS Specialist Sections and European Boards.
- The EJD representatives in the European Boards have the right to a full vote according to a decision of the UEMS Council of Management of 18 October 1991.
- Since 2007 the EJD is also represented in the Multidisciplinary Joint Committees (MJC).
