

UEMS CME/CPD Working Group Meeting

Friday, April 24, 2026

11.00 – 12.30

Carthage Thalasso Resort, Gammarth, Tunisia

Meeting Room: Carthage III

Agenda

1. Opening of the meeting
2. Approval of the agenda
3. Report from the Working Group, October 17, 2025 (attached Power Point)
4. UEMS CPD Charter – follow-up

UEMS CPD Charter was adopted at the last UEMS Council meeting in Tbilisi, Georgia on October 18, 2025. The final version of it is attached.

Thank you for the CME/CPD Working Group and especially its Task Force for creating this important document.

A Power Point presentation about the key contents of it has been produced and will be found at the UEMS netsite, as well as a short summary (attached).

The WG will discuss the the distribution of the Charter and its further use as a keystone UEMS document.

5. Questionnaire about the current situation regarding CME/CPD situation in the UEMS Member countries

There is no clear picture of the current state in UEMS Member countries. The need for a questionnaire was discussed and accepted at the last meetings of the Working Group. The questionnaire should be concise and the terminology clearly explained (voluntary, obligatory/compulsory, requirements, recommendations, potential sanctions etc.).

Some information about the CME/CPD situation can be gathered from the National Reports to the Council. But this is rather limited and not all member countries send their report.

Attached is a draft for this questionnaire, it has been commented by members of the WG Task Force and the discussion at the last WG meeting. It is the wish that the CME/CPD Working Group will comment the contents of the questionnaire.

6. Developments in the CME/CPD situation in the UEMS member states and specialties – members of the WG are encouraged to tell about interesting new developments.
7. New developments within EACCME
8. UEMS Congress May 27-30, 2026, Leuven. Very interesting and extensive program, also including many sessions and abstracts about CME/CPD.
9. Discussion about the future of the Working Group(s). E.g. length of term and election of the chairperson and rapporteur?
10. Any other business
10. Next meeting, October 16, 2026 in Brussels

Welcome!

Dr. Hannu Halila

Chairman of the CME/CPD Working Group
UEMS Past President, UEMS Honorary Member
Finland
