UEMS European Board of Surgery Body Report - Arthur Felice (08/02/2025)

Body: The European Board of Surgery (EBS)

Author: Arthur Felice

President of the EBS and Vice-president of the UEMS Division of General Surgery

The UEMS Body Template.

This is not applicable to the UEMS European Board of Surgery because of its particular organisational structure. The template is relevant to Sections, Divisions, Working Groups and MJCs.

The organisation of the European Board of Surgery is designed in a flat, multi-layered, collective member driven paradigm, avoiding pyramidal structures. This allows for decisions to be taken at nodes where there is more knowledge and skills. The only structural change in 2024 was the addition of a 4th Focus Group dedicated to the Engagement of Fellows within the UEMS. The objective of this new Focus Group is to explore ways whereby we assure that Fellows feel that their FEBS and the UEMS have relevance and value for them in their professional activities.

Topics tackled since September 2024 (date of the last UEMS EBS Body Report):

- 1. Leading on Standardisation of Terminology, Glossary and List of Acronyms for WG Postgraduate Training : 2nd draft stage**
- 2. Reviewing new or re-edited Specialty ETRs – Ongoing**
- 3. Overlapping competencies in UEMS Specialty ETRs**
- 4. Revalidation / Recertification**
- 5. Documentation and safekeeping of Lists of Fellows with contact addresses**
- 6. Standardisation of the various UEMS EBSQ Exams**

continued on the following page

- 7. Engagement of Fellows**
- 8. The potential and needs of Experienced Fellows**
- 9. Gender balance in the surgical community**

This Report follows on a similar UEMS Body Report dated September 2024. . It is a brief but clear outline of the more recent work of the EBS.

President of the European Board of Surgery

Activity Reports of FEMS (Federation of European Salaried Doctors)

Alex Ramos, MD. MEd, 2nd Vicepresident of FEMS

The new FEMS board officially began its mandate on January 1, 2025. In these three months, it has defined the new political line and the strategic initiatives it will implement in the coming months:

- Recognition of medical work as arduous work, through an analysis of the current national and European regulatory guidelines and the initiation of a discussion table with European institutions.
- Identification of the fundamental rights of employed doctors, with a particular focus on the union protections for workers.
- Determination of staffing needs through the adoption of the full-time equivalent model for operators.

Additionally, FEMS will launch the project – Shaping the future of Doctors' Health The FEMS Survey Project.

Shaping the future of
Doctors' Health - Spe

Furthermore, on April 23, FEMS will present the FEMS white book to the European Parliament to initiate a discussion on the working conditions of doctors in Europe and will present the association's lines of action."
